

CIT Relay & Switch Finalized Acquisition of Picker Components

CIT Relay & Switch, located in greater Minneapolis area, is now further enhanced by the addition of Picker Components; both are designers and manufacturers of quality electromechanical relays and switches, supported by sales offices and distributors worldwide. Serving HVAC, Industrial, Audio, Broadcasting, Automotive, Lighting, White Goods, Security industries with custom and standard design requirements, CIT's state-of-the-art test lab allows us to analyze applications as well as custom testing for the most critical projects.

CIT Relay & Switch places customers first, working directly with customers on simple to complex projects, tailoring custom solutions and designs. When you contact CIT, you are immediately connected to a professional. Our technical engineering and customer support team are well-trained and can help with your design selection requirements. With the Test Lab, CIT can address custom or standard test requirements under a variety of conditions to validate your application. From small to large projects, we are here to help with your testing needs. Join the many customers who have come to rely on the good folks at CIT.

CIT Relay & Switch, joined with Picker Components, provides robust solutions for engineering.

"The combination of CIT and Picker will generate value for our customers through a large choice of tailored solutions, a global network of services and expanded engineering expertise. It will magnify our value with a wider breath of product while at the same time extracting synergies. We look forward to continued growth and strength this will give our operation." noted Jeff Hampton, President of CIT Relay & Switch.

Whenever opportunities arise, we will work to provide our customers the best product for the application and most compelling support experience. Two quality manufacturers now rolled into one for continued growth of CIT / Picker through paramount service, selection, quality and value – we strive to be the best.
