

## **CIT Relay & Switch Finalizes Acquisition of Picker Components**

CIT Relay & Switch located in the greater Minneapolis area is now further enhanced by the addition of Picker Components; both are designers and manufacturers of quality electromechanical relays and switches supported by sales offices and distributors worldwide serving HVAC, Industrial, Audio, Broadcasting, Automotive, Lighting, White goods, Security, custom and more standard designs requirements. Its state-of-the-art test lab allows CIT to analyze applications as well as custom testing for the most critical projects.

CIT Relay and Switch places the customer first working directly with customers from simple to complicated projects, tailoring custom solutions and designs. When you contact CIT, you are immediately connected to a professional. Our technical, engineering and customer support personnel are well-trained and can help with your design selection requirements. With a State-Of-The-Art Test Lab CIT can address custom or standard test requirements under a variety of conditions to validate your application. From small to large projects, we are here to help with your testing needs. Join the many customers who have come to rely on the good folks at CIT.

CIT Relay & Switch joined with Picker Components provide robust solutions for engineering.

“The combination of CIT and Picker will generate value for our customers through a large choice of tailored solutions, a global network of services and expanded engineering expertise. It will magnify our value with a wider breath of product while at the same time extracting synergies. We look forward to continued growth and strength this will give to our operation,” noted Jeff Hampton, President of CIT Relay & Switch.

Wherever opportunities arise, we will work to provide customers the best product for the application and most compelling support experience. Two quality manufactures rolled into one for continued growth of CIT/Picker through paramount service, selection, quality, and value – we strive to be the best.
